

McLennans

Diving Service

Environmental Policy

McLennans Diving Service maintains the following environmental goals.

- To comply with all legislation and generally accepted standards of behaviour
- To minimise environmental impact particularly on our waterways and marine life.
- To minimise and contain the spread of contaminated water into the surrounding environments around MDS work sites.
- To anticipate Environmental Hazards and be prepared for environmental emergencies on all MDS work sites.
- To minimise waste and recycle wherever possible.
- To minimise the use of scarce resources.

McLennans Diving Service endeavours to operate all of it's sites in an ecological and sustainable way.

This policy is endorsed by the Directors of McLennans Diving Service,

Alan McLennan

David Allchin
